KIDS**

**BEFORE & AFTER SCHOOL CLUB
INFORMATION PACK**

01.

WHO ARE WE?

We are a local business run by ex teachers and OSCAR professionals focused on one thing, your kids!

We have extensive knowledge and skills after working years in the industry. We want to reinvent and reinvest into what we are passionate about, children! We partner with schools to provide a safe, fun and structured environment where your kids get the opportunity to try out things they normally wouldn't at traditional ASC care programmes - (trust us we know).

02.

WHY JOURNEY KIDS?

Because Journey Kids sets the gold standard when it comes to Out of School Care. We aim to provide the most extensive experiences for the children in our care through our carefully crafted lesson plans. We believe that an After School Club needs to provide the right amount of freedom to allow kids to play, experience, learn and grow. Creating the perfect balance isn't easy but at Journey Kids our formula is simple. Fun and safety first.

We are proud to say that we focus on STEM (science, technology, engineering and mathematics), sports and the arts. We enlist the help of professionals in these fields to deliver high quality experiences for your children.

We are local parents and work with schools to understand specific community needs. We like to see ourselves as an extension of the school that your children attend. Don't be surprised to see us at your schools next gala or assembly!

03.

WHAT DO WE DO?

WILDERNESS SKILLS

Learn how to build shelters, make basic hunting traps or tell the time with a stick, you name it, we'll teach it.

ARTS AND CRAFTS

We believe there's an inner Picasso in all of us, LET'S FIND IT!

HOMEWORK CLUB

We offer support for your students to complete homework so at night they spend more time with their family.

SPORTS

From casual activities to full structured sports games, nothing is off limits.

TECHNOLOGY

Drones, cameras, audio and visual equipment, we try it all.

EDUCATION/SCIENCE

For those book worms or wacky scientists we offer interesting facts and tales with activities to support.

LIFE SKILLS

Money smart activities, social awareness games and 'how to' activities are all included in our terms programmes. Setting your kids up for life!

COMMUNITY ACTIVITIES

When we say we do what we do for our parents and communities, we mean it. Keep an eye out at your local After School Club to find out what we offer our parents, we think you will love it!

04.

WHAT CAN WE EXPECT TO SEE?

ZONES

Our programmes will be divided into zones. Zones where children get to pick and choose how they want to spend their afternoon - flying a drone or digging up fossils, no provider provides that variety!

ENGAGED AND SKILLED STAFF

Our staff will be carefully selected and undergo rigorous training making sure they are the right fit for our team. We care about our kids and we hire staff that do too.

SAFE PRACTICES

Your children's safety is and always will be paramount. We follow MSD and OSCAR accreditation guidelines to go above and beyond for child safety.

05.

WE'VE PARTNERED UP

SCIENCE BOX

We have partnered up with Science Box. A company created by PHD student Shalini from University of Waikato. We deliver Science Box experiments to your students with everyday household items. Science box will be delivered weekly at our programmes by our specially trained staff.
